### EXPERIENCE

Full stack web developer, Algebratéc Technologies Dec 2018 - Oct 2019  
Constantine, Algeria.

- Helped the team managing our clients by creating a dashboard using Angular and Laravel/lumen.
- Conserved efforts and time building landing pages by creating a special Angular project structure that held all the landing pages.
- Accelerated the development of our projects by writing NodeJs scripts that helped share one codebase between some projects.
- Collected data from various hotel websites by creating a scraping tool that I built using Goutte/php.
- Eased the integration of our hotel booking API by our clients. through a documentation page that I created using Swagger-ui.
- Designed and built our company's new website with wordpress.
- Managed and Organized the workflow of the projects that I worked on with Trello, and used GIT for versioning.

Android developer, Personal

Mar 2016 - Sep 2019

[http://bit.ly/megaache\\_apps](http://bit.ly/megaache_apps).

- Created eSouq: an online marketplace app
- Created Golden souq: a serverless app to buy and sell goods
- Create Binatna: a chat app using firebase
- Integrated google maps sdk for esouq
- Used firebase to create serverless apps
- Used the LibGDX framework to create games
- Created modern designs following google's material design guide
- Used the MVVM architecture to build the apps utilizing data binding and jetpack components
- Used Laravel to create the backend for eSouq, and integrated Google Drive API for storage.

---
