

# MEGAACHE YOUNES

FULL STACK WEB DEVELOPER | ANDROID DEVELOPER

18/06/1997 Single Ngaous, Batne Algeria

## EDUCATION

UNIVERSITY OF CONSTANTINE 2 / 2018 to 2020  
Master of Information Technologies

UNIVERSITY OF CONSTANTINE 2 / 2015 to 2018  
Bachelor of Computer science  
i majored in information Technologies (IT)

## EXPERIENCES

ALGEBRATEC / Dec 2018 to present  
Full Stack web developer (remote/freelance)

- I created a dashboard to manage the consumers of our hotel booking api that offered advanced logging and analytics, with angular and Laravel/lumen
- I created 6 landing pages with angular that share the same business logic.
- I wrote scripts with nodejs that helped to share code between our angular projects.
- I created a documentation page for our hotel booking api with swagger-ui.
- I used GIT for versioning, and Trello to manage our projects and organize the workflow.

## PROJECTS

JAN 2018 TO JUN 2018

### Graduation project

An eCommerce android app that facilitate consumer to consumer sales.

- Developed the app based on the MVVM architecture
- Designed the app following google's material design guidelines
- Developed a RESTful backend with Laravel
- Implemented google drive API to store files.

2015 TO 2018

### Android apps

developed 30+ android apps for diffrents roles and goals, i uploaded some of them to the play store at:  
<https://play.google.com/store/apps/developer?id=Megaache+smart+apps>
