WORK EXPERIENCE

Full Stack web developer (remote) Dec 2018 to present

ALGEBRATEC (Ali Mendjli, Constantine, Algeria)

- I Made it easy for the team to manage our clients by creating a dashboard with advanced logging and analytical tools using Angular and Laravel/lumen.
- Using one business logic codebase, i built 6 dynamic landing pages for our clients.
- I sped up the development of our projects by writing node scripts that helped share one codebase between some of our projects.
- I provided large amount of data about hotel prices for a client by scrapping various hotel booking websites using Goutte/php.
- I eased the integration of our hotel booking API by our clients through a documentation page that i created using Swagger-ui .
- I managed and organized the workflow of the projects i worked on with Trello, and used GIT for versioning.

PROJECTS

Graduation project JAN 2018 TO JUN 2018

An eCommerce android app that facilitate consumer to consumer sales.

- Achieved beautiful design with great performance by following google's material design guidelines and building the app based on the MVVM architecture.
- Developed fast and reliable RESTful backed using Laravel.
- Stored user images securely by integrating Google Drive api.

Android apps 2015 TO 2018

Developed 30+ android apps for different roles and goals,
i uploaded some of them to the play store at:

<https://play.google.com/store/apps/developer?id=Megaache+smart+apps>
