### WORK EXPERIENCE

**Full stack web developer, Algebrattec Technologies** Dec 2018 - Present  
Constantine, Algeria.

- Helped the team managing our clients by creating a dashboard using Angular and Laravel/lumen.
- Conserved efforts and time building landing pages by creating a special Angular project structure that held all the landing pages.
- Accelerated the development of our projects by writing NodeJs scripts that helped share one codebase between some projects.
- Collected data from various hotel websites by creating a scraping tool that I built using Goutte/php.
- Eased the integration of our hotel booking API by our clients. through a documentation page that I created using Swagger-ui.
- Designed and built our company's new website with wordpress.
- Managed and Organized the workflow of the projects that I worked on with Trello, and used GIT for versioning.

---

### EDUCATION

**Bachelor Degree of Computer Science** 2015 - 2018  
University of Abdelhamid Mehri

- Built a model of a car managing system with UML diagrams and designed a UI prototype using Photoshop.
- Created A student attendance management web app using JQuery and used MaterializeCSS for styling.
- Created A transports tickets reservation desktop app coded in JAVA utilizing JavaFX and JDBC.

---

### PROJECTS

**Zedeal Store** An Online eCommerce website <http://zedeal.rf.gd>

- Built the website using wordpress and woocommerce.
- Created clean mobile friendly design using Elementor.

**Golden souq** An eCommerce android app [http://bit.ly/golden\\_souq](http://bit.ly/golden_souq)

- Achieved beautiful design with great performance by following google's material design guidelines.
- Build the app based on the MVVM architecture.
- Developed fast and reliable RESTful service using Laravel/Lumen.
- Implemented Firebase as a backend for the production version.

**Other projects** Various websites and android apps

- Online resume/personal website (MEAN app)  
<http://megaache-younes.herokuapp.com>
