EXPERIENCE

Full stack web developer — **Algebratec Technologies**, December 2018 - PRESENT

- Helped the team managing our clients by creating a dashboard using Angular and Laravel/lumen.
- Conserved efforts and time building landing pages by creating a special Angular project structure that held all the landing pages.
- Accelerated the development of our projects by writing NodeJs scripts that helped share one codebase between some projects.
- Collected data from various hotel websites by creating a scraping tool using Goutte/php.
- Eased the integration of our hotel booking API by our clients. through a documentation page that I created using Swagger-ui.
- Designed and built our company's new website with Wordpress.
- Managed and Organized the workflow of the projects that I worked on with Trello, and used GIT for versioning.

EDUCATION

Bachelor of computer science — **University of Abdelhamid Mehri Constantine**, 2015 - 2018

- Created a model of a car managing system with UML diagrams and designed a UI prototype with Photoshop.
- Created A student attendance management web app with JQuery and MaterializeCSS.
- A transports tickets reservation app coded in JAVA utilizing JavaFX and JDBC.
