WORK EXPERIENCE

Full Stack web developer (remote)   Dec 2018 to present

ALGEBRATEC (Ali Mendjli, Constantine, Algeria)

- Helped the team managing our clients by creating a dashboard with advanced logging and analytical tools using Angular and Laravel/lumen.
- Conserved efforts and time building dynamic landing pages for our clients, by creating one busniss logic codebase.
- Accelerated the development of our projects by writing node scripts that helped share one codebase between some of our projects.
- Provided large amount of data of hotel prices for a client, by scrapping various hotel booking websites using Goutte/php.
- Eased the integration of our hotel booking API by our clients through a documentation page that i created using Swagger-ui .
- Managed and Organized the workflow of the projects i worked on with Trello, and used GIT for versioning.

PROJECTS

Graduation project   JAN 2018 TO JUN 2018

An eCommerce android app that facilitate consumer to consumer sales.

- Achieved beutiful design with great performance by following google's material design guidlines and building the app based on the MVVM architecture.
- Developed fast and reliable RESTful backed using Laravel.
- Stored user images securely by integrating Google Drive api.

Android apps 2015 TO 2018

Developed 30+ android apps for diffrents roles and goals, i uploaded some of them to the play store at:
https://play.google.com/store/apps/developer?id=Megaache+smart+apps
